

IndiGo BluChip Campaign & Acquisition Performance

Customer cohort engagement, attribution modeling, and campaign ROI synthesis

Program: IndiGo BluChip
Cohort Sample: 1,000 Members
Focus: Growth & Retention Analytics

1. EXECUTIVE SUMMARY & IMPACT OVERVIEW

This portfolio analysis evaluates the operational performance and economic viability of the **IndiGo BluChip** loyalty initiative across a controlled cohort of 1,000 multi-channel enrolled travelers. Through targeted promotional campaigns, automated app triggers, and co-branded alliance pathways, the program realized an active member rate of **93.9%**, driving **₹7,49,945** in directly attributable flight spend against a lean marketing outlay of **₹60,250**—delivering an overall campaign return on investment of **11.4x (1,145%)**.

TOTAL COHORT 1,000 939 Active (93.9%)	ENGAGEMENT RATE 48.9% 489 Actively Engaged	CONVERSION RATE 25.9% 259 Total Flight Bookings	ATTRIBUTABLE SPEND ₹7,49,945 11.4x Blended ROI

2. PROMOTIONAL CAMPAIGN PERFORMANCE BREAKDOWN

Four distinct lifecycle campaigns were deployed to activate new members and stimulate repeat bookings across seasonal business and holiday windows. Conversion was highest when incentives combined milestone bonuses with low redemption frictions.

Campaign Name	Primary Objective	Target Reached	Engaged	Eng. Rate	Bookings	Conv. Rate	Gross Revenue	Cost	Net ROI
Fly More, Earn More	Accelerated tier flight bonus	257	130	50.6%	79	30.7%	₹2,06,966	₹15,000	12.8x
App Activation	First in-app check-in / booking	242	148	61.2%	72	29.8%	₹2,00,097	₹12,250	15.3x
Partner Weekends	Dining & retail earn-multipliers	266	116	43.6%	50	18.8%	₹1,72,640	₹18,000	8.6x
Welcome to BluChip	Onboarding activation & profile	235	95	40.4%	58	24.7%	₹1,70,242	₹15,000	10.3x
Consolidated Campaign Metrics		1,000	489	48.9%	259	25.9%	₹7,49,945	₹60,250	11.4x

Analyst Key Finding: Digital direct triggers generated the highest capital efficiency. *App Activation* yielded a **15.3x ROI** with a 61.2% engagement rate, demonstrating that self-service app enablement directly correlates with immediate booking conversions.

Top Revenue Driver: Fly More, Earn More Captured ₹2,06,966 (27.6% of campaign total). High-frequency fliers responded directly to accelerated BluChip	Efficiency Outlier: App Activation Delivered ₹2,00,097 on an expenditure of only ₹12,250. Push notifications for digital boarding pass downloads

3. ACQUISITION CHANNEL PERFORMANCE & ATTRIBUTION

Channel acquisition costs, member quality, and direct lifetime conversion rates vary considerably across digital native touchpoints versus third-party commercial partners.

Acquisition Channel	Acquired Members	Active %	Attributable Spend	Avg Spend / Member	Primary Driver
IndiGo Mobile App	285	96.8%	₹2,32,450	₹815	Zero-friction native enrollment flow
IndiGo Direct Web	310	94.5%	₹2,24,110	₹723	Checkout booking pop-up checkbox
Bank Co-brand (Axis)	175	95.4%	₹1,58,720	₹907	Premium credit card milestone accelerators
Travel Partners (OTAs)	130	89.2%	₹82,440	₹634	Post-ticketing member linking API
Retail & Dining Partners	100	88.0%	₹52,225	₹522	Single.id affiliate merchant offers
Blended Channel Total	1,000	93.9%	₹7,49,945	₹750	Direct digital channels account for 60.9% of spend

4. CUSTOMER COHORT & SEGMENT VALUATION

Segmentation reveals strong monetization among corporate and traveling households, while leisure and student cohorts offer substantial headroom for auxiliary partner engagement.

Segment Revenue Contribution Frequent Business (31.2% ₹2,33,856): 180 members with high willingness-to-pay, prioritizing priority boarding and express baggage turnaround. Family Travelers (20.9% ₹1,56,650): 210 members generating top basket sizes during festive and quarterly vacation cycles. Young Professionals (20.3% ₹1,52,489): 235 members active on metro routes with high app session lengths and lifestyle affinity. Leisure & Students (27.6% ₹2,06,950): 375 combined price-sensitive members responsive to off-peak flash sales and co-branded retail deals.	Partner Ecosystem Integration IndiGo BluChip's integration with Single.id enables real-time cross-burn without custom API friction across everyday retail brands: Axis Bank: Highest spend per user (₹907), accelerating high-tier cardholder acquisitions. Swiggy & EazyDiner: Crucial off-flight engagement mechanism maintaining DAU stickiness between flights. 6E Hotels & ALL Accor: High-margin ancillary bundling for long-weekend travelers.

5. STRATEGIC RECOMMENDATIONS FOR PROGRAM EXPANSION

1. App-First Predictive Re-Engagement Automate personalized push reminders 45 days post-flight based on historical route frequency. Scaled App Activation can capture an estimated ₹4.2M incremental ARR across larger member cohorts.	2. Optimize Partner Burn Mechanics Enhance redemptions on everyday dining (Swiggy/EazyDiner) to prevent points breakage dissatisfaction while reserving flight seat redemptions for tier-defense milestones.
3. Dynamic Corporate Co-Brand Bundling Structure custom SME corporate BluChip pools where business managers earn enterprise points while corporate travelers retain personal BluChips, deepening B2B route	4. OTA Channel Disintermediation Offer guaranteed 2x BluChip multipliers exclusively on direct mobile bookings to migrate low-margin OTA travelers (₹634 avg spend) to high-yield direct web/app
